CANI-FLEX

Lloyd

How Supplied:

Bottle of 60 tablets	List No. 2591
----------------------	---------------

Administration: Feed free choice, from the hand or crumble and mix into the food.

Indications: Glucosamine is a naturally occurring compound for the body's production of joint lubricants and components necessary to maintain healthy cartilage and joint function. A precursor and regulator of tissue synthesis, glucosamine stimulates the production of synovial fluid and the complete cartilage matrix, including collagen and hyaluronic acid.

For use as a nutritional supplement as an aid in the protection against articular cartilage deterioration. It has been used in a variety of degenerative joint situations, following surgery, and as a protective agent for younger working or older arthritic pets.

This compound is not recognized as an essential nutrient by the AAFCO dog food nutrient profile and this product is not intended to diagnose, cure or prevent any disease.

Dosage:

Cats and dogs under 25 lbs - 1/2 to 1 tablet daily.

Dogs 25 - 49 lbs - 2 tablets daily.

Dogs 50 -100 lbs - 3 tablets daily.

Dogs over 100 lbs - 4 tablets daily.

Give in divided doses morning and night.

Note: The animal should be kept on the initial dose for five to six weeks. As gradual improvement is noted, a maintenance dose of one-half the initial dose may be used.

Each Scored Tablet Contains:

D-Glucosamine HCl	500 mg
-------------------	--------

Ingredients: Dicalcium phosphate, D-Glucosamine HCl, brewers dried yeast, cellulose powder, lactose, starch, povidone, glycerin, silicon dioxide, magnesium stearate, cod liver oil, brown dye.

KEEP OUT OF REACH OF CHILDREN

Store at room temperature. Protect from light and excessive heat (104°F).
