### **RF2 - dental biofilm control**

#### **Oral hygiene in dogs and cats**

**INGREDIENTS:** Purified water, glycerin, sorbitol, propylene glycol, rheum palmatum (source of RF2), methylparaben, sodium saccharinate, propylparaben, coloring.

Does not contain Xylitol.

**PROPERTIES:** CLENZ-A-DENT™ RF2 Water Additive/Mouth Rinse is a palatable and refreshing solution for the reduction of plaque and bad breath in dogs and cats. CLENZ-A-DENT RF2 contains a unique patented ingredient. RF2 breaks down the biofilm made by bacteria present in the mouth. Biofilm is the first step to plaque and tartar build-up. Therefore CLENZ-A-DENT RF2 disrupts the formation of biofilm and thus prevents plaque build-up and tartar.

RF2 also restores the mouth's natural bacterial balance.

The combined actions of RF2 on tartar build-up and bacterial balance help fight bad breath.
