

Ectomethrin H2O Equine Fly Spray

Ectomethrin H2O contains six times the concentration of competitive cypermethrin products for the longest lasting protection available -- up to 21 days against a wide range of insects, including horse flies, house flies, horn flies and face flies. And because of its unique water-based formula, it protects even sweaty horses! Convenient spray.

- Protects against biting and nuisance flies, gnats and mosquitoes
- Sweat resistant
- Water-based formula

Directions for Use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Not for use on horses intended for human consumption.

Shake well before using.

To protect horses and ponies from Horse flies, house flies, stable flies, face flies, horn flies, deer flies, gnats and mosquitoes. Thoroughly brush the horse's coat prior to applications to remove loose dirt and debris. For dirty horses, shampoo and rinse thoroughly. Wait until the coat is completely dry before applying this product. Ectomethrin H2O's unique sweat resistant formula contains a special conditioner that binds to the hair shaft so it keeps working when the horse sweats. Application should be liberal for best results. For horse's face, always apply as a wipe using a piece of clean, absorbent cloth, towel or sponge. Avoid getting in to eyes, nose or mouth. Wear rubber gloves or a mitt while applying as a wipe. Spray or wipe horse's entire body while brushing against the lay of the coat to insure adequate coverage.

Reapply every 14 days for fly control under normal conditions for initial applications. Reapply every 5-7 days for mosquito repellency. Also, reapply each time animal is washed or exposed to heavy rain.
