## ESBILAC® LIQUID

PetAg

### **Puppy Milk Replacer**

**Food supplement for dogs**

**For puppies newborn to 6 weeks of age**

**#1 Selling Brand**

**Natural milk protein with added vitamins and amino acids**

**SHAKE WELL - REFRIGERATE AFTER OPENING**

### **Directions for Feeding Esbilac®:**

All puppies should receive their mother's milk for at least 2 days, if possible. The colostrum milk gives extra nutrition and temporary immunity against some diseases. Warm Esbilac to room or body temperature. **Feed puppies 2 tablespoons (30 mL) per 4 ounces (115 g) of body weight daily. Divide the daily feeding amount into equal portions for each feeding.** Small and/or weak puppies should be fed every 3 to 4 hours. Larger and/or older puppies can do well being fed every 8 hours. The amount required should be increased or decreased to meet the individual requirements for each puppy. The PetAg 4 oz. Nurser is suited for feeding most puppies. When puppies are old enough to lap, begin offering Esbilac in a shallow container. During the 6th week mix Esbilac with Esbilac® 2nd Step™ Weaning Food to allow the puppy to gradually switch to solid food. **Pregnant and Lactating Bitches, Growing Puppies (post weaning), Show Dogs and/or Convalescing Dogs:** Feed 2 tablespoons (30 mL) Esbilac per 5 lbs. (2.2 kg) body weight daily.

**Discard after 72 hours. Do not freeze in original container. Not for human consumption.**

**Ingredients:** Water, condensed skimmed milk, soybean oil, sodium caseinate, cream, calcium caseinate, egg yolks, L-methionine, L-arginine, calcium carbonate, choline chloride, lecithin, magnesium sulfate, potassium chloride, monopotassium phosphate, salt, tricalcium phosphate, carrageenan, dipotassium phosphate, dicalcium phosphate, ascorbic acid, ferrous sulfate, potassium hydroxide, zinc sulfate, vitamin A supplement, vitamin E supplement, niacin supplement, calcium pantothenate, copper sulfate, maltodextrins, thiamine hydrochloride, pyridoxine hydrochloride, riboflavin, manganese sulfate, vitamin D3 supplement, potassium citrate, potassium iodide, folic acid, vitamin B12 supplement, biotin.
