WARNING: Keep out of the reach of children. Store at controlled room temperature.

FOR VETERINARY USE ONLY

C.E.T. Tarter Control Enzymatic Toothpaste is specially formulated for companion animal use.

DIRECTIONS: Use a soft-bristled brush such as the C.E.T. Dual-Ended Toothbrush. Apply daily or as directed by your veterinarian. Your veterinarian may give you specific directions; follow this professional advice closely.

Pets Have Teeth Too!™

Home dental care is as important for your pet as it is for you. A program of oral hygiene and regular professional care can prevent problems that might occur as the result of plaque and tartar buildup. Routine home dental care should be a part of every pet's health care program.

Good to Chew, Better to Rinse, Best to Brush!

C.E.T. Home Dental Care - 3 Easy Options to Better Oral Health

The C.E.T. 3 Easy Options method provides dental care options for all pets, regardless of size, age, temperament, or time constraints of busy owners. Begin where you and your pet are most comfortable, or use all 3 options in combination for fresh breath, cleaner teeth and better health for your pet.
