KETOSEB FLUSH +PS

Sogeval

Shared solutions

Chlorhexidine 0.2%, Ketoconazole 0.2%, Phytosphingosine 0.02%

Topical Antiseptic Formulation with Astringent, Cleansing and Drying Properties.

CONTAINS PS

PhytoSphingosine

Restores the Lipid Barrier

Active Ingredients: Chlorhexidine Gluconate 0.2%, Ketoconazole 0.2%, Phytosphingosine-salicyloyl 0.02% in a solubilizing vehicle.

Properties: Ketoseb Flush + PS is an antiseptic (antibacterial and antifungal) formulation with astringent, general cleansing and drying properties. Phytosphingosine is a pro-ceramide to restore the skin barrier and helps in the long-term management of skin conditions. Phytosphingosine-salicyloyl also has anti-inflammatory properties to further control irritations. Ketoseb Flush + PS may be used for the topical cleansing of puncture wounds, lacerations and abrasions, as well as superficial skin conditions that are responsive to chlorhexidine and ketoconazole in dogs, cats and horse.

Directions for Use: Apply Ketoseb Flush +PS liberally to affected area. Use cotton or absorbent material to clean excess solution. Do not allow animal to lick the treated areas until dry to prevent ingestion. Apply twice daily or as directed by your veterinarian. Wash hands after using.

Precautions: Do not swallow. Avoid contact with eyes or mucous membranes. If eye contact occurs, rinse thoroughly with water and consult a veterinarian. If undue skin irritation develops or increases, discontinue use and consult a veterinarian.

Storage: Store at controlled room temperature.

Available Through Licensed Veterinarians Only
