

NurtureCALM 24/7 Pheromone Collar For Cats

Sustained Release Pheromones For Cats & Kittens

**NurtureCALM 24/7 Pheromone Collars** for cats are proven to modify behavior. Helps cats in fearful or stressful situations [separation anxiety, visitors, other household cats, loud noises, new baby, vet visits, traveling]. The pheromone provides a convenient alternative to diffusers which are limited for use in the confines of a designated room. The calming collar goes where your cat goes, whether it is at home or on the go.

NurtureCALM 24/7 Feline Calming Collar lasts up to 30 days.

NurtureCALM 24/7 Pheromone Collar mimics the pheromone that the mother cat produces to calm and reassure her kittens. Cats recognize these pheromones throughout life. Pheromone behavior collars mimic the natural way to help cats cope with new and fearful situations.

**Directions:** Place collar around pet's neck, adjust to fit cat's neck comfortably. The collar must be worn loosely to allow for growth of the pet and to permit the collar to move about the neck. Generally a properly fitted collar is one that when fastened, will snugly slide over pet's head. Leave 2 or 3 inches for extra adjustment. Cut off the excess portion of the collar. The collar is designed to release powder when applied, which will activate the pheromones. When fresh collar is stretch out it may show an excess of powder. This excess powder is primarily a carrier for the pheromones and is not harmful to the pet. Wash hands after placing collar on pet. Seal collar in plastic bag when not in use to prolong effectiveness.

**Composition:** Pheromones 6%, inert ingredients 94%

**Caution:** Remove the collar before shampooing your cat and replace it after the cat's coat is dry. do not use collar on cats with extensive skin lesions. NurtureCALM 24/7 Pheromone Collar is not a pharmaceutical product.

Store at room temperature.

Do not allow children to play with collar.
