PYOBEN® GEL

Virbac

DERMATOLOGY

MEDICATED GEL FOR DOGS AND CATS

ANTIMICROBIAL

KERATOLYTIC

FOLLICULAR FLUSHING

(benzoyl peroxide)

DESCRIPTION: Pyoben Gel is a topical water base preparation for use in treating superficial microbial infections. Benzoyl peroxide is an oxidizing agent which possesses antibacterial and keratolytic properties. Pyoben Gel contains 5% micronized benzoyl peroxide in a gel base containing water, propylene glycol, carbopol 940, disodium EDTA, dioctyl sodium sulfosuccinate, amorphous silicon dioxide.

May also contain citric acid and/or sodium hydroxide.

ACTION: Benzoyl peroxide is an antibacterial agent and causes drying and peeling.

INDICATIONS: Pyoben Gel is indicated in dog and cat skin conditions responsive to topical, antimicrobial/keratolytic agents.

CONTRAINDICATIONS: Contraindicated in patients hypersensitive to any of the components in the formulation.

PRECAUTIONS: For external use only on dogs and cats. Avoid contact with the eyes or on mucous membranes. If irritation develops, decrease frequency of use or discontinue use.

***May bleach colored fabric.** Contact dermatitis has been reported in humans but not in dogs.

WARNING: Depending on the severity of the condition, concomitant systemic antibiotic therapy may be indicated.

Keep out of reach of children. Wash hands after using. **May bleach colored fabrics, clothing, or carpet.**

DOSAGE & ADMINISTRATION: Pyoben Gel should be applied to the affected areas once or twice daily after cleansing the area.

HOW SUPPLIED:

30 gm plastic tube

CAUTION: Federal Law (U.S.A.) restricts this drug to use by or on the order of a licensed veterinarian.

For animal use only. For topical use only. If condition persists or does not improve in 7 days, consult your veterinarian.

Store at controlled room temperature (59°-86°F).

***IMPORTANT:** As benzoyl peroxide is a potent oxidizing agent, it will bleach many fabrics, i.e. carpet, upholstery, etc. Advise clients to keep pets away from all fabric during therapy.

AVAILABLE THROUGH LICENSED VETERINARIANS ONLY
